

More or Less than 1

Lay out all the circles face-down. Choose two in each round for ten different rounds and add them together.

If your answer is more than 1, you get 5 points. If your answer is less than 1, you get 2 points. Write your points down on a piece of scrap paper. After playing ten rounds, add your points together to see who is the winner. This game can be played with your entire group or just with a partner.

Closest to $\frac{1}{2}$, $\frac{3}{4}$, or 1

Lay out all the circles face-down. Choose two circles in each round for ten different rounds and add them together.

If your answer is closest to $\frac{1}{2}$, you get 2 points.

If your answer is closest to $\frac{3}{4}$, you get 3 points.

If your answer is closest to 1, you get 5 points.

Write your points down on a piece of scrap paper. After playing ten rounds, add your points together to see who is the winner. This game can be played with your entire group or just with a partner.
